Personal Details

Date of Birth : 21/05/1996

Marital Status : Married

Skills & abilities

- **Programming Languages:** Python (Django, Tkinter), Core Java, C, C++.
- **Web Technologies:** HTML, CSS, JavaScript.
- **Databases & Version Control:** MySQL, SQLite, Git, GitHub.
- **System Administration & Networking:** Linux Administration, LAN/WAN, Routers/Switches.
- **IT Support & Troubleshooting:** Hardware Diagnostics, E-Hajiri Systems, CCTV Networks.

Achievements & Awards

- **Participated in the Tek9fun 2k18 at AP Goyal Shimla University, Winner in code hunt.**
- **IIT BOMBAY spoken tutorial – BOSS Linux**
- **IIT BOMBAY spoken tutorial - Java**
- **IIT BOMBAY spoken tutorial - C++**

Objective

Detail-oriented and proactive Software Developer and System Administrator with robust experience in Python (Django), relational database management, and institutional IT infrastructure. Seeking to contribute technical expertise to scalable software development and system operations at the Software Development and Operation Center (SDOC).

Experience

Shree Buddhi Bikash Higher Secondary & Additional Technical School – *Senior Computer Instructor* **Apr 2026 – Present**

- Overseeing computer lab environments to guarantee seamless daily operations.
- Performing software installations, updates, and comprehensive hardware diagnostics.
- Administering electronic attendance (E-Hajiri) systems, CCTV networks, and hardware repairs.
- Delivering instruction on computer basics, programming fundamentals, and networking concepts.
- Designing the OJT curriculum and executing system security updates.

Shree Buddhi Bikash Higher Secondary & Additional Technical School – *Computer Instructor* **Jan 2025 – Apr 2026**

- Managing computer labs and ensuring smooth system operations.
- Installing, updating, and troubleshooting software and hardware issues.
- Teaching computer fundamentals, programming, and network basics to students.
- Implementing security updates and maintaining system reliability.

Shree Buddhodaya Higher Secondary School – *Computer Instructor* **Aug 2024 – Jan 2025**

- Configured and maintained computer systems, ensuring smooth lab operations.
- Assisted students with practical projects in Python and Java.
- Maintained local network connectivity and performed regular system backups.
- Conducted IT maintenance and user support activities within the institution.

Tamakoshi English Boarding School – *Computer Teacher* **May 2024 – Aug 2024**

- Conducted classes on operating systems, programming, and basic networking.
- Handled system configuration and troubleshooting tasks for school computers.

Lakshya Academy – *Computer Teacher* **Apr 2023 – Mar 2024**

- Supervised computer lab networks and ensured functional computer systems.
- Created lesson plans emphasizing real-world IT applications.

Languages

- **English**
- **Nepali**
- **Hindi**

Soft Skills

- **Troubleshooting and analytical thinking.**
- **Team Collaboration and communication.**
- **Detail-oriented and adaptable.**
- **Strong sense of responsibility and discipline.**

31 Parallel BPO & IT Solutions Pvt. Ltd. – *Associate (Data Entry & IT Support)* **Nov 2020 – Mar 2022**

- Provided end-user support and resolved system/network-related issues.
- Ensured smooth operation of desktop systems and maintained data backups.
- Assisted with LAN connectivity, antivirus management, and software deployment.

Education

AP Goyal Shimla University | B.Tech (CSE) **2020**

CGPA : 6.79

NSIC JUBBAL | Diploma in Computer Hardware and Networking **2016**

Grade: A+

HPBOSE | Science (Non-medical) **2014**

Percentage : 57.8%

HPBOSE **2012**

Percentage : 63.2%

Projects

- **Harmoonlineschool.com** – Developed an online school website with responsive design and learning modules.
  Technologies:- HTML,CSS,Python,Hosting(cPanel)
- **Certificate Generator –** Built a Python-based automation tool for dynamic certificate creation.
  Technologies:- Python, Tkinter, PIL
- **Buddhibikash.edu.np –** Created the official school website with an integrated Online Attendance Management System.
  Technologies:- HTML,CSS,Python.
- **KeepItSecret –** Developed a GUI-based encryption/decryption application for secure text handling.
  Technologies:- Python(Django)
- **School Management System –** Designed backend & database modules for school operations.
  Technologies:- HTML,CSS,Python(Django)

COURSES AND INTERNSHIPS

- **Advanced Cyber Security, CDAC Mohali** **Apr, 2022 - July, 2022**
- **Web Development, Oceana Tech** **Jan, 2020 - Jun, 2020**
- **Python (tkinter), Smart Programming** **Jul, 2019 - Aug, 2019**
- **Java IBM CORE, EME** **Jul, 2018 - Aug, 2018**
- **Core Java, NIELET Shimla** **Jul, 2017 - Aug, 2017**
